

Thermoplastic hose GAS8F416 / GAS6F316

Flexible and easy to profile, thermoplastic hoses shorten the time of assembling LPG installations. With gradual copper prices growth, they become not only the comfortable but also the economic alternative for traditional copper pipes.

| | GAS8F416 | GAS6F316 |
|-------------------------------|----------------|----------------|
| Inside diameter | Ø6,4 (1/4") | Ø4,8 (3/16") |
| Outside diameter | Ø12,5 | Ø9,5 |
| Equivalent of the copper pipe | Ø8 | Ø6 |
| Accordance with type | Faro | Faro |
| Homologation | E20 67R-011000 | E20 67R-010998 |
